UX & PRODUCT DESIGN EXPERIENCE

ZEGO | Senior UX Designer

2019 - PRESENT

- Lead the redesign of the mobile app for 700,000+ residents, including entirely new page layouts, interactions, site map, and intuitive navigation
- Designed a new navigation for the customer web portal to increase the findability of features, enhance the customer experience, and address future scalability
- Create and maintain design systems from scratch, including 100+ icon library
- Serve as "Remote Team Culture Captain" to advocate for 30+ remote employees
- Utilize UX based research to communicate UX initiatives to product leadership
- Advocate for human-centered UX design across product and development teams
- Collaborate with non-designers by leading cross-functional team working sessions
- Develop and present internal training for developers on Figma and UX processes
- Apply user testing insights in feature designs prioritizing the customer experience

INFUSION DESIGN | Design Manager

2012 - 2019

- Managed design team (aircraft interior, graphic, and digital product design)
- Created and tested user interfaces for in-flight entertainment systems
- Lead client relationships including quality assurance and project deliverables
- Designed branding strategies including logo design and marketing materials
- Developed client websites from initial concepts to prototypes and front end design
- Illustrated floor plans and edited final interior renderings
- Produced technical floor plans, elevations, and detail drawings
